Welcome to the Denham Springs High School Class Registration System for 2024-2025

Students will select courses for the 2024-2025 school year from the courses listed below. All students must attend school for (8) class periods unless they are enrolled in CTE Internship. Students and parents should consider graduation requirements, college entrance requirements and TOPS requirements when selecting courses the student will take each year of high school. To enter online course requests, click on the yellow pencil and the courses offered for that subject area will appear. More than one course can be selected in that subject area if needed. Remember to click "SUBMIT" once you have completed entering all requested courses. If the schedule was entered correctly, a copy of your current course registration screen will appear. An error message will appear if there is a problem with your current course requests. Students will complete this online registration of courses and will be allowed to make schedule corrections until the course registration period closes on Monday, March 18th @ 7:00 AM. At that time, online course registration will be closed and schedule changes will no longer be permitted. Once the student has completed online registration, please print a paper copy of their final course requests. The printed copy must be signed/dated by both the student and the parent or legal guardian. This signed copy will also serve as written confirmation of receipt of both the current diploma and TOPS requirements.
